

multi-purpose tables

multi-purpose

As a single-source supplier of healthcare furniture, our offering would not be complete without multi-purpose tables.

Designed with care, our multi-purpose tables have both the resident and caregiver in mind, with a special provision for increased wheelchair accessibility. Unlike any other product on the market, our height adjustable table features an easy-to-operate pneumatic cylinder that provides effortless and infinite height positioning. Additionally it features a unique, concealed transport system, available as an option.

Durable, yet lightweight, these tables can be set in place, repositioned, transported and stored with ease.

Tops are high pressure laminate on 1" particle board core edged with a choice of wood, PVC or poly-resin edge designs.

Adjustable-height multi-purpose table with optional transport system

features

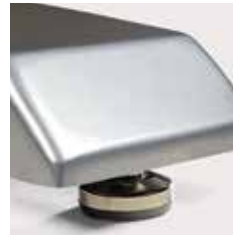

Height-adjustment lever is unobtrusive and simple to operate

Foot pedal engages and disengages concealed caster system for easy transport

Twin-wheel rubber casters ensure quiet, easy movement

Heavy-duty nylon glides are adjustable to eliminate wobble

Several edge styles available. Poly-resin spill edge shown here
