

multi-purpose tables

tables

As a single-source supplier of healthcare furniture, our offering would not be complete without a collection of multi-purpose tables.

Designed with care, our multi-purpose tables have both the resident and caregiver in mind, with a special provision for increased wheelchair accessibility. Our unique Dignity height adjustable table features an easy-to-operate pneumatic cylinder that provides effortless and infinite height positioning. Additionally it features a concealed transport system and a flip-top mechanism, available as an option.

Durable, yet lightweight, these tables can be set in place, repositioned, transported and stored with ease.

Tops are high pressure laminate edged with a choice of wood, PVC or a raised poly-resin spill edge.
