

Stance Healthcare is continuously looking for ways to ensure that we are doing all we can to safeguard the health of the natural world, our employees, the end-users of our products, and other stakeholders who might be impacted by our operations. We are committed to environmentally, socially and economically sustainable business practices, and decision-making that recognizes the short and long-term concerns of our stakeholders.

 **Healthier Hospitals**

A PRACTICE GREENHEALTH PROGRAM

Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge. Practice Greenhealth does not verify manufacturer information.

The Healthy Interiors goal is part of the Safer Chemicals Challenge, one of six pillars of activity in Healthier Hospitals.

Participating hospitals must ensure that 30 percent of the annual volume of furnishings and furniture purchases (based on cost) eliminate the use of formaldehyde, perfluorinated compounds, polyvinyl chloride (PVC), antimicrobials, and all flame retardants.

Stance Healthcare's guest, patient, lounge, and behavioral health seating products from the following lines, can be specified to conform to the Healthy Interiors goal of the Safer Chemicals Challenge:

Products must not be ordered with the CAL 133 option. We do not accept responsibility for COM.

All products are subject to exceptions around finishes such as vinyl and stain guard specifications.

Due to our evolving supply chain, it is recommended that conformance be confirmed at time of specification.
